RE: EXPIRATION OF ML 51329-MP / Antelope Quarry

Gentlemen:

The above numbered Mineral Materials Permit for Limestone will reach the end of its term and expire on April 30, 2013. Upon expiration you will no longer have any rights relevant to the permit. No additional limestone may be mined or removed from the property once the permit is expired.

You are required to reclaim all mining disturbances to the permitted lands in accordance with the terms and conditions of ML 51328-MP, and DOGM Small Mine Permit S/039/018. The reclamation work may commence any time from the date of this letter and should be completed within the next 60 days.

Please contact me if you have any questions in this matter.

Sincerely,

John T. Blake
Deputy Assistant Director/Minerals

CC: Lynn Kunzler ✓
